Southwest Oilfield Products (Houston TX, USA) is a premier oil and gas equipment manufacturer providing innovative mud and well service pump solutions to the world’s leading oil & gas exploration and production companies.

Over 60 years ago, Southwest Oilfield Products was founded on mud pump piston innovation. Today we continue to carry this legacy forward with the introduction of our PitBull Piston. Engineered to out perform other polyurethane pistons in demanding environments, and improve pump reliability while reducing HSE risks.

Key Benefits
- Designed for Standard Temperature & High Pressure Service (220°F / 7500 PSI)
- Suitable for Oil based mud or Synthetic drilling mud
- Excellent Chemical and Abrasion Resistance in the Most Demanding Well Conditions
- Dual Durometer Urethane, together allow longer life and exceeding performance
- Reduced Operating Costs in Challenging Operating Environments
- Long-lasting than other mud pump pistons (Averages 30% +)
- Reliable on both Domestic and International rigs in the world

Features
- Rugged, Forged Steel Hub
- High Strength, Custom Blended Urethane
- Standard 1.625” bore but includes reduction bushing for 1.5” rods
- Generous Lead-in Chamfer eases Installation
- O-ring
